With a view to encourage the participation of small investors, make the shares more accessible to retail investors and provide enhanced liquidity to the equity shares in the Stock Market, the Board of Directors has considered and approved the sub-division (stock split) of **One** equity shares of the Company having a face value of Rs. 10 each into **Five** (5) equity shares of face value of Rs.2 each subject to approval of the members and any other statutory & regulatory approvals, as may be applicable. The proposed sub-division (stock split) of shares will not have any effect/result on the voting percentage / rights of any shareholders of the Company.

The record date for the aforesaid sub-division of equity shares shall be fixed by the Board after the approval of the members is obtained for the proposed sub-division (stock split).

In the opinion of the Board, proposed sub-division of the equity shares is in the best interest of its investors and therefore the Board at its meeting held on September 30, 2021, recommend the aforesaid sub-division (stock split) to the shareholders. Proposed sub-division (stock split) will not have any impact on the amount of authorized, subscribed and paid-up Share Capital of the Company on account of Sub-division (stock split) of equity shares. The sub-division of equity shares proposed under business item No. 10 of this Notice shall also require amendment to the existing Clause 5 of the Memorandum of Association of the Company and Article 5 (1) of the Articles of Association of the Company as set out under item no. 10 of this Notice. Pursuant to Sections 13, 14, 61 and other applicable provisions of the Act and the Rules made thereunder, approval of the members by way of Special Resolution is required for sub-division and carrying out any amendment to the Memorandum and Articles of Association of the Company.

Presently the Authorised Share Capital of the Company is Rs. 2,50,00,000/-(Rupees Two Crores Fifty Lakhs Only) divided into 25,00,000 (Rupees Twenty Five Lakhs) equity shares of Rs.10 (Rupees Ten Only) each. The issued and paid up share capital is Rs. 1,60,72,000/-(One Crore Sixty Lakhs Seventy-Two Thousand Only) divided into 16,07,200 (Sixteen Lakhs Seven Thousand and Two Hundred Only) equity shares of Rs. 10/- each.

The sub-division (stock split) as aforesaid would require consequential amendments to the existing Clause V of the Memorandum of Association of the Company as set out in Item 10 of the Notice respectively.

Accordingly, your directors recommend the Resolution at item Nos. 9 and 10 of this Notice, for your approval as Ordinary Resolution.

None of the other Directors or Key Managerial Personnel of the Company or their relatives are concerned or interested in the said resolution except to the extent of the equity shares held by them in the Company.

A copy of the existing Memorandum of Association of the Company along with the proposed draft alteration is available for inspection by any shareholder at the Registered Office of the Company between 10 A.M. to 1.00 P.M. on all working days (except Saturdays, Sundays and Public Holidays) up to Wednesday, October 27, 2021.

The sub-division of equity shares proposed under business item No. 10 of this Notice shall also require amendment to the existing Clause 5 of the Memorandum of Association of the Company and Article 5 (1) of the Articles of Association of the Company as set out under item no. 10 of this Notice. Pursuant to Sections 13, 14, 61 and other applicable provisions of the Act and the Rules made thereunder, approval of the members by way of Special Resolution is required for sub-division and carrying out any amendment to the Memorandum and Articles of Association of the Company.

Annexure A to the Directors' Report**MANAGEMENT DISCUSSION AND ANALYSIS****OVERVIEW**

The financial statements are prepared in compliance with the requirements of the Companies Act, 2013. There are no material departures from the prescribed accounting standards in the adoption of the accounting standards. The management of **Hindustan Everest Tools Limited** accepts responsibility for the integrity and objectivity of these financial statements.

(a) INDUSTRIAL STRUCTURE & DEVELOPMENTS

India's diverse and comprehensive financial service industry is growing rapidly, owing to demand drivers like higher disposable incomes, customized financial solutions, etc. and supply drivers like new service providers in existing markets, new financial solutions, and products. The Indian financial service industry comprises several key sub-segments. These include, but are not limited to - stockbrokers, wealth managers, financial advisory companies, and commercial banks - ranging from small domestic players to large multinational companies. The services are provided to a diverse client base - including individuals, private businesses, and public organizations.

Amidst COVID-19 challenges, the industry has been constantly resilient and was functioning even during the complete lockdown period. The entire infrastructure and the intermediaries of the industry were working full time. Technology upgradation and innovation by entire value chain has become the new norm in industry. Constantly evolving regulations in order to safeguard retail interest also require market intermediary to be nimble, agile and quick-footed. Backed by the Government favored spending even at the cost of a rising fiscal deficit, to limit the impact of a prolonged COVID-19 crisis and improving consumer sentiment has been evident as the industry marked record high new demat accounts that were opened. The pandemic created profitable investment opportunities for market participants, with those with plenty of liquidity at hand benefiting most.

The Government has also eased Initial Public Offer (IPO) process to allow Qualified Foreign Investors (QFI) to access Indian Bond markets. The Government in the current budget increased FDI limit in insurance to 74% from 49%.

The fiscal and monetary stimulus provided by the Government and RBI has assisted in quick recovery greatly the economy. Rising incomes are driving the demand for financial services across income brackets. This change will come from economic and government policies, from innovation, operational restructuring, technology and from continued growth of the shadow banking system. With a combined push by the Government and private sector, India's future seems to be vibrant in capital markets. India is expected to be the fourth largest private wealth market globally by FY 2028.

(b) OPPORTUNITIES AND THREAT, OUTLOOK & AREA OF CONCERN

Technology-driven financial services or digital financing is one of the most important ways to work for low-income clients in India. Digital tools have encouraged rapid growth by significantly reducing the cost of financial services providers and making services easier and more accessible to users. The need for customers to find digital solutions for seamless financial services with ease, security and safety has taken precedence over the pandemic. In response, management has been using the pandemic to consolidate and transform the Company's digital processes in an efficient manner in order to keep it competitive as the business resumes. The company will continue to explore various ways to strengthen the capital and its balance sheet to maximize long-term resources to meet the financial needs of its business operations, financing for future growth opportunities, overall business objectives and other goals including successfully addressing the uncertainties and disruptions caused by the COVID-19 pandemic.

The disease continues to pose a major challenge worldwide, including in India. However, it seems that countries have now learned the process of adaptation - a new way of life. The timing and magnitude of the second wave of pandemics, the introduction of two new vaccines (according to a recent announcement by the Union Department of Health) in addition to the two existing vaccines released in February, 2021, the scale and effectiveness of implementation of the continued vaccination application and the efficacy of economic and monetary policy actions of Indian authorities are the important elements to impacting the pace of economic restoration.

(c) SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

The Company had only one segment i.e., business of trading in metals. However, due to unfavourable business environment and to safeguard against losses the management did not engage into trading in metals during financial years ended 31-March-20 and 31-March-21.

However, after the change in management pursuant to indirect acquisition via Share purchase Agreement dated October 24, 2021, the new Management engaged in the business of trading in financial instruments w.e.f. February 10, 2021, the results of current quarter from continuing business reflect the results of in financial instruments.

The Company has future prospect of engagement in the business of Trading in mutual funds, equity derivatives and other securities.

(d) FUTURE OUTLOOK AND PROSPECTS

Your Company has newly entered into new line of Business i.e., Trading in Financial Instruments and looking forward to enhance its growth in same line of business in same segment in the near future.

(e) RISK MANAGEMENT & CONCERNS

The Company has laid down procedures to inform Board Members about the risk assessment and minimization procedures.

Further, the Company has limited risks as investments are majority in debt funds.

(f) HUMAN RESOURCE DEVELOPMENT AND INDUSTRIAL RELATIONS

The pandemic has brought about dramatic changes in all of our lives highlighting the importance of social isolation, wearing masks, use of sanitation facilities, hygiene to reduce the spread of Corona virus and making living habits with the Corona virus, for an indefinite period of time. The Company continued to urge employees to adhere strictly to the Social Distancing Protocol and reduce health risks during the pandemic by adapting to new working conditions, balancing work life balance, switching to Work from Home (WFH) whenever necessary. 'Lockdown' provided a lot of new learning, ideas and experience regarding effective communication strategies, effective time management, thereby improving overall efficiency, cost-effectiveness. The importance of focusing on digital payments and the use of advanced customer service strategies has gained great prominence. Our company is well-suited to adapt to hybrid work cultures - a combination of WOF and Work from Office / sector, as and when necessary, to address the challenge of strong pandemic conditions.

(g) INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has adequate internal control procedures commensurate with the size of the Company and the nature of its business. These systems are designed to ensure that all the assets of the company are safeguarded and protected against any loss and that all the transactions are properly authorized recorded and reported.

The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of internal control systems and suggests improvements to strengthen the same. The Board of Directors

has framed a policy which ensures the orderly and efficient conduct of its business, safeguarding of its assets, to provide greater assurance regarding prevention and detection of frauds and accuracy and completeness of the accounting records of the company.

Further your company has adequate internal financial control with reference to its financial statements

INDEPENDENT AUDITOR'S REPORT

To the Members of Hindustan Everest Tools Limited

Report on the Audit of the Standalone Financial Statements**Opinion**

We have audited the accompanying Standalone financial statements of Hindustan Everest Tools Limited ("the Company"), which comprise the Balance sheet as at 31-March-2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, the state of affairs of the Company as at 31-March-2021, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are Independent Auditor of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Annual financial statements of the current year. These matters were addressed in the context of our audit of the financial statement as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor’s report thereon. The Annual Report is expected to be made available to us after the date of this auditor’s report

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the Annual Report If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact to those charged with governance.

Responsibilities of Management for the Standalone Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance(including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that

were of most significance in the audit of the standalone financial statements for the financial year ended 31-March-2021 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE-2 TO THE INDEPENDENT AUDITOR'S REPORT**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

To the Members of Hindustan Everest Tools Limited

We have audited the internal financial controls over financial reporting of Hindustan Everest Tools Limited as of 31-March-2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We had conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the

transactions and dispositions of the assets of the company;

- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31-March-2021, based on the criteria for the internal control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Explanatory paragraph

We also have audited, in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under section 143(10) of the Act, the standalone financial statements of the Company, which comprise the Balance Sheet as at 31-March-2021, and the related Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, and our report dated 30-June-2021 expressed an unmodified opinion.

Summary of significant accounting policies and other explanatory information to the standalone financial statements for the year ended 31-March-2021

1. Corporate Information

Hindustan Everest Tools Limited ("HETL" or the 'Company') was incorporated on 25-January-1962, and it is now a public limited Company engaged in: -

- a) Trading in metals, and
- b) Business of trading in financial instruments [w.e.f 10-Feb-2021]

The Company is domiciled in India and the address of its registered office of the Company is at 4/11, 1stFloor, Asaf Ali Road, New Delhi. The equity shares of the Company are listed on Bombay Stock Exchange ("BSE" or "the Stock exchange").

The Company is a wholly owned subsidiary of Mandelia Investment private limited ("MIPL") and during the year ended 31-March-2021, there was a change the management of the Company. Refer note 7 (i.e., equity share capital) for detailed disclosure.

2. Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these standalone financial statements. These policies have been consistent with those of the previous year.

A) Basis of preparation

i) Statement of compliance

These standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act. The Company has prepared these financial statements which comprise the Balance Sheet as at 31-March-2021, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended 31-March-2021, and a summary of the significant accounting policies and other explanatory information (together hereinafter referred to as 'financial statements').

The financial statements have been prepared on going concern basis using a historical cost convention, except certain financial assets and financial liabilities which are measured at fair value as explained in relevant accounting policies.

The financial statements for the year ended 31-March-2021 were authorized and approved for issuance by the Board of Directors on 30-June-2021.

ii) Discontinued operations

The Company had closed the only manufacturing facility in the year 2017. Results of the manufacturing operations that were discontinued, are disclosed as discontinued operations. Further, during the quarter ended 31-Dec-2018, the Company had substantially completed the settlement of liabilities and realisation of assets, pertaining to its discontinued operations. The adjustments in the current period pertain to changes in the settlement of those liabilities.

iii) Presentation of financial statements

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle of the Company
- Held primarily for the purposes of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle of the Company
- It is held primarily for the purposes of trading
- It is due to be settled within twelve months from the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

iv) Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires that management make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and the income and expense for the reporting period. The actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant judgements and areas of estimation uncertainty in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are discussed below:

Significant management judgements

The following are significant management judgements in applying the accounting policies of the Company that have the most significant effect on the financial statements are as follows:

- **Recognition of deferred tax assets** - The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.
- **Evaluation of indicators for impairment of assets** – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.
- **Classification of leases** – The assessment (including measurement) of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/terminate etc. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and

affects its ability to exercise or not to exercise the option to extend or to terminate.

- **Provisions**

At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

- **Contingencies**

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Company. A tax provision is recognised when the Company has a present obligation as a result of a past event; it is probable that the Company will be required to settle that obligation. Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements. When considering the classification of a legal or tax cases as probable, possible or remote there is judgement involved.

This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific tax law, in particular India, and the likelihood of settlement. Management uses in-house and external legal professionals to inform their decision.

Although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the Company's financial position or profitability.

- **Going concern**

The management has made an assessment of the Company's ability to continue as going concern and is satisfied that the Company has resources to continue in business for the foreseeable future. Further, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as going concern.

Estimation uncertainty

- Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.
- **Recoverability of advances/ receivables** – At each balance sheet date, based on discussions with the respective counterparties and internal assessment of their credit worthiness, the management assesses the recoverability and expected credit loss of outstanding receivables and advances. Such assessment requires significant management judgement based on financial position of the counter-parties, market information and other relevant factor.
- **Classification of assets and liabilities into current and non-current** – The management classifies the assets and liabilities into current and non-current categories based on management's expectation of the timing of realisation of the assets or timing of contractual settlement of liabilities.
- **Impairment of non-financial assets** – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.
- **Impairment of financial assets** – The Company estimates the recoverable amount of trade receivables and other financial assets where collection of the full amount is expected to be no longer probable. For individually significant amounts, this estimation is performed on an individual basis considering the length of time past due, financial condition of the counterparty, impending legal disputes, if any and other relevant factors.
- **Fair value measurements** – Management applies valuation techniques to determine the fair value

of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible, but this is not always available. In that case management uses the best information available.

B) Financial instruments

Recognition and initial measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets are recognized when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value.

Classification and subsequent measurement

The Company has applied Ind AS 109 and classifies its financial assets in the following measurement categories: -

- Fair value through profit or loss (FVTPL)
- Fair value through other comprehensive income (FVOCI)
- Amortised cost

a) Financial assets carried at amortised cost

The Company classifies the financial assets at amortised cost, if the contractual cash flows represent solely payments of principal and interest on the principal amount outstanding and the assets are held under a business model to collect contractual cash flows. The gains and losses resulting from fluctuations in fair value are not recognised for financial assets classified in amortised cost measurement category.

– a financial asset is measured at the amortised cost, if both the following conditions are met:

The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

b) Financial assets measured at FVOCI

The Company classifies the financial assets as FVOCI if the contractual cash flows represent solely payments of principal and interest on the principal amount outstanding and the Company's business model is achieved by both collecting contractual cash flow and selling financial assets. In case of debt instruments measured at FVOCI, changes in fair value are recognised in other comprehensive income.

Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as other income in the Statement of Profit and Loss.

In case of equity instruments irrevocably designated at FVOCI, gains / losses including relating to foreign exchange, are recognised through other comprehensive income. Further, cumulative gains or losses previously recognised in other comprehensive income remain permanently inequity and are not subsequently transferred to profit or loss on de-recognition.

c) **Financial assets measured at FVTPL**

The financial assets are classified as FVTPL if these do not meet the criteria for classifying at amortised cost or FVOCI. The Company makes such election on an instrument-by-instrument basis. Such financial assets are subsequently measured at fair value at each reporting date. In case of financial assets measured at FVTPL, changes in fair value are recognised in profit or loss.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily de-recognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (1) the Company has transferred substantially all the risks and rewards of the asset, or (2) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities

Subsequent measurement

Subsequent to recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle the mon a net basis or to realise the asset and settle the liability simultaneously.

Fair Value

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability
- In absence of principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

- Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 — inputs that are unobservable for the asset or liability

C) **Property, plant and equipment**

Recognition and measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on retirement from active use or disposal of an item of property, plant and equipment is recognised in statement of profit and loss.

Subsequent expenditure

All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is derecognised when replaced. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

Depreciation method and estimated useful lives

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit and loss.

Depreciation on fixed assets is provided as per the guidance set out in the schedule II to the Companies Act, 2013. Depreciation is charged on straight-line method based on estimated useful life of the asset after considering residual value as set out in schedule II to the Companies Act, 2013. Depreciation on additions (disposals) is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

D) **Employee benefits**

(i) Short-term employee benefits

Short-term employee benefit includes salaries/short-term cash bonus and such obligations are measured at an undiscounted amount and are expensed as the related service is provided. A liability

is under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably. These costs are recognised as an expense in the Statement of Profit and Loss at the undiscounted amount expected to be paid over the period of services rendered by the employees to the Company.

(ii) Long-term employee benefits

a) **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes monthly contributions to statutory provident fund (Government administered provident fund scheme) in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 which is a defined contribution plan. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in statement of profit or loss in the period(s) during which the related services are rendered by employees.

b) **Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. Gratuity is a post-employment benefit and is in the nature of a defined benefit plan.

In view of closure of its operations in earlier years, the Company's net obligation in respect of defined benefit plans had been considered as current liability and has been calculated on actual basis as per the provisions of Payment of Gratuity Act, 1972. The same was discharged during the year. The Company did not have any outstanding defined benefit obligations as at the year ended 31-Mar-2021.

E) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

F) Leases

For any new contracts entered into on or after 01-April-2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company has recognized right of use assets, measured at an amount equal to lease liability (adjusted for related prepayments/ accruals) and has discounted lease payments using the incremental borrowing rate for measuring the lease liability.

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in Statement of profit and loss on a straight-line basis over the lease term.

G) Revenue Recognition

Trading in financial instruments

Revenue from trading consists primarily of net trading income (presented net of costs) earned by the Company when trading as principal. Net Trading income from trading represents trading gain net of trading losses. The profit or loss arising from all transactions entered into on account and risk of the Company are recorded on completion of trade date.

Market Value for exchange traded derivatives, principally, futures and options, are based on quoted market prices. The gains or losses on derivatives used for trading purposes are included in revenue from trading. Purchase & Sales of derivatives financial instruments are recorded on trade date. The transactions are recorded on a net basis.

As per Ind AS 109 Financial Instruments, in respect of options contracts open as on the reporting date, the net premium paid or received is carried forward to the balance sheet as financial assets or financial liabilities. The unrealized gain or loss measured on fair valuation is shown as financial assets or financial liabilities.

Revenue from trading in financial instruments is presented net of expenses directly attributable to trading in financial instruments, like Exchange transaction charges, SEBI turnover fees and Stamp duty.

Consulting and advisory Income

Advisory income or service income is accounted for on an accrual basis in accordance with the terms of the respective agreements entered into between the Company and the counter party.

Interest

Revenue is recognized on accrual basis using effective interest rate method.

Dividends

Dividend on equity shares, preference shares and on mutual fund units is recognized as income when the right to receive the dividend is established as at the reporting date.

H) Income tax

Income tax comprises current and deferred tax incurred by the Company. It is recognised in statement of profit or loss except to the extent that it relates to items recognised directly in equity or OCI, in which case the tax effect is recognised in equity or OCI.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted by the reporting period and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of

the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes.

Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is recognised for:

- deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

Minimum Alternative Tax ('MAT') credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity and in this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis, or their tax assets and liabilities will be realised simultaneously.

l) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

J) Earnings per share

The basic earning/loss per share is computed by dividing the net profit/(loss) before other comprehensive

income attributable to owners of the Company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/(loss) per share comprises the weighted average shares considered for deriving basic earnings/(loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

K) Provisions and contingent liabilities

Provisions are recognized only when there is a present obligation (legal or constructive), as a result of past events and when a reliable estimate of the amount of obligation can be made at the reporting date. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognized nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

L) Impairment

Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the recoverable amount of the asset or the cash generating unit is estimated. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount. The carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If, at the reporting date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is re-assessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the statement of profit and loss.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets, Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

M) Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ('CODM') of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segment of the company.

In accordance with IND AS- 108, the Company had only one segment i.e., business of hand tools. However, due to unfavourable business environment and to safeguard against losses the management did not engage into trading in metals during financial years ended 31-March-20 and 31-Mar-21. Further, w.e.f. 01-April-21, the Company has discontinued the business of trading in metals.

The new management has engaged in the business of trading in financial instruments w.e.f 10-Feb-21. Accordingly, revenue for the year ended 31-March-2021 represents revenue from trading in financial instruments.

N) Dividends

Being appropriately authorized and no longer at the discretion of the entity, provision is made for the amount of any dividend declared, on or before the end of the reporting period but not distributed at the end of the reporting period.

Final Dividend is recorded as liability on the date of approval by shareholders in their General Meeting. Interim Dividend is declared as liability on the date of declaration by Board of Directors.

O) Events after Reporting Date

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

The labour union had submitted a demand notice to the management of the Company for revision of wages and other amenities. This notice was under negotiation when without any prior notice, the workers staged a walk out on 22-May-20 bringing the production and all aligned activities to a complete standstill. All efforts by the management as well as the labour department to find a resolution to the strike were unsuccessful.

The Hon'ble Governor of Haryana issued orders declaring the strike to be illegal and directed the workers to join duty with in 3 days of the order and refer the dispute to the labour court panipat. This too had no affect on the labour union and the workers resorted to unrest and production shut down on 3 separate occasions causing heavy losses to the Company. The strike continued, forcing the management to issue notice of forfeiture of Gratuity and all other dues include lien on service of all workers on payrolls.

The notice regarding the forfeiture of gratuity and other dues was challenged by some of the workers through Labour office, Sonipat where the matter was dismissed in favour of the Company. Thereafter, the workers appealed before the Dy. Labour Commissioner, Rohtak where DLC ruled the matter in favour of the workers i.e. against the Company. The learned DLC chose to pass this order without giving due consideration to the actual facts of the case and therefore, the Management then had no option but to approach the High Court, Chandigarh vide writ petition no. 18716/2018 and the case was decided against the Company on 06-Mar-20. Management has filed a revision petition on a larger bench on 05-July-20 and the petition has been admitted for hearing on merit 22-Mar-21.

However, during the year ended 31-March-20, on a prudence basis, the management had recorded an expense of Rs. 71,47,000 lacs. During the year ended 31-Mar-2021, the Company has provided for the incremental interest and is carrying a total provision of Rs.1,36,25,643 (previous year Rs. 1,25,00,644) in the books of account. The management believes the likelihood of a higher liability is very low.

(b) Provision for liabilities under indirect taxes

25 Fair value hierarchy

Some of the Company's assets and liabilities are measured at fair value for financial reporting purpose. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to

which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Company can access at measurement date.

The Company has a system-based approach to risk management, anchored to policies and procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its investing and financing activities. Accordingly, the Company's risk management framework has the

objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulation. It also seeks to drive accountability in this regard.

27 Financial risk management

(A) Credit risk

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

a) Credit risk management

i) Credit risk rating

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: High credit risk

Asset group	Basis of categorisation	Provision for expenses credit loss
A: Low credit risk	Trade receivables, cash and cash equivalents and loans	12 month expected credit loss
B: High credit risk	Trade receivables	Life time expected credit loss or fully provided for

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy, advance not recoverable or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in statement of profit and loss.

ii) Discontinued operations

The Company's current assets aggregate to Rs. 9,64,656 (2020- Rs.9,88,110) including current investments, cash and cash equivalents and other bank balances of Rs. nil (2020- Rs. nil) against an aggregate current liability of Rs. 2,11,22,085 (2020- Rs.2,14,87,648); Non-current liabilities amounting to Rs. Nil (2020- Rs. Nil).

Further, while the Company's total equity stands at Rs. 20,11,41,548 (2020- Rs.16,38,43,811). In such circumstances, liquidity risk or the risk that the Company may not be able to settle or meet its obligations as they become due, is low.

(C) Market risk

The Company holds investments and measure them at fair value through Profit and Loss. The value of investments in such equity instruments and debt based mutual funds as at 31-March-2021 is Rs. 5,19,48,331 (2020- Rs. 18,40,41,318). Accordingly, fair value fluctuations arising from market volatility is recognised in statement of Profit and Loss.

As the Company is virtually debt-free and its deferred payment liabilities do not carry interest, the exposure to interest rate risk from the perspective of Financial Liabilities is negligible. Further, treasury activities, focused on managing investments in equity/debt instruments, are centralised and administered under a set of approved policies and procedures guided by the tenets of liquidity, safety and returns. This ensures that investments are only made within acceptable risk parameters after due evaluation.

(D) Foreign currency risk

The Company does not have a significant foreign currency risk as it does not have any exposure in foreign currency as at the year end. The Company has no-hedge policy for its foreign currency items as these are insignificant. Therefore, the sensitivity to foreign currency fluctuation is not relevant.

28 Capital management policies and procedures

For the purpose of the Company's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Company. The primary objective of the Company when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. As at 31-March-2021, the Company has only one class of equity shares and has no debt. Consequent to such capital structure, there are no externally imposed capital requirements. In order to maintain or achieve an optimal capital structure, the Company allocates its capital for the re-investment into business based on its long-term financial plans.
